CX & DX solutions

Customer Experience (CX):

Every touchpoint is a brand-building opportunity. Our CX solutions include Customer Care, Technical Support, Social Media & Content Moderation, Sales Growth & Retention, and Healthcare/Patient Experience.

Advisory Services: Carve out a competitive edge with our tailored, “out of the box” thinking. Specialized services are available for Data Analytics, Business Process Excellence, Learning Excellence, Workforce Management, Process Transformation, and Digital Consulting.

Digital Experience (DX):

Combine the best of technology and human-centered design. Our DX solutions include AI & Bots, Omnichannel, Mobility, Cloud Contact Center, Platform Transformation, and UX & UI.

Risk Solutions: Reduce the risk of fraud and noncompliance. Our risk solutions include Trust & Safety, Verification, Compliance Screening, Trend Management, Know Your Customer (KYC), Anti Money Laundering (AML), and Fraud Management.

IT Lifecycle: Deploy the best IT talent, technology, time to market, and cost optimization. Solutions include IT Service Desk, Application Development, Testing & QA, Infrastructure Management, Internet of Things (IoT), and Enterprise Platform Services.

Back Office: Our back-office solutions are designed to streamline your customer administration needs to drive both productivity and performance. Solutions cover Robotic Process Automation (RPA), Finance & Accounting, and Supply Chain Management.
